PROFESSIONAL SUMMARY

Full-Stack Software Engineer with over 3 years of professional experience building scalable web applications and APIs using Angular, ReactJS, .NET Core, SQL, and modern cloud technologies. Proven track record in designing responsive front-end interfaces and secure backend services across e-commerce, POS, and microservices platforms. Strong collaborator with experience in Agile teams, CI/CD pipelines, and cloud deployment. Recently completed an MSc in Data Science and Computational Intelligence at Coventry University. Available for full-time Software Engineer or Full-Stack Developer roles in the UK (Graduate Visa).

SKILLS

Frontend Development : Angular, React JS, Bootstrap, SCSS, JavaScript, TypeScript, jQuery

Backend Development : .NET Core, Laravel, Spring Boot, PHP, REST API

Databases : SQL Server, MySQL, PostgreSQL, MongoDB, Firebase

Cloud & DevOps : Azure DevOps, AWS (EMR, Redshift, Hadoop, Glue, S3), Docker, Kubernetes

Architecture & Patterns : Microservices, Clean Architecture, Domain-Driven Design (DDD), CQRS, MVC

Data & Automation : Python, SQL, R, Selenium, Linux

Search & Caching : Redis, Elasticsearch

Source Control : Git, Bitbucket

Tools & Other : Rabbit MQ, Postman, Swagger, JMeter, JWT, Entity Framework Core

WORK EXPERIENCE

Unicom SD (Pvt) Ltd | Bubltown 01/2023 - 02/2025

UK-based company - based on-site in Sri Lanka

Software Engineer

- Developed modern front-end components using Angular, TypeScript, Bootstrap, and SCSS for a high-traffic e-commerce and local commerce platform.
- Designed, built, and maintained RESTful APIs and a microservices architecture using .NET Core, Entity Framework Core, and SQL Server, integrating with the Angular front end to support local authorities and businesses.
- Optimised APIs and database queries to improve performance and support high-concurrency user traffic, contributing to scalable modules that helped onboard new business clients.
- Implemented unit testing for backend services, improving code reliability, maintainability, and overall software quality.
- Deployed and configured applications on Azure, leveraging cloud infrastructure for scalable, production-grade environments.
- Implemented CI/CD pipelines and sprint workflows using Azure DevOps, improving delivery efficiency.
- Collaborated with designers, developers, and project managers to deliver high-quality production software on schedule.

Unicom Tic 03/2024 - 01/2025

Visiting Lecturer

- Delivered lectures on Programming Fundamentals, OOP, DSA, and Web Development (HTML, CSS, Bootstrap, JavaScript, Angular).
- Conducted practical sessions on API development with .NET Core and database design with SQL, bridging theory and real-world development.
- Mentored students on programming assignments, debugging techniques, and full-stack project development.

MoodForCode 07/2021 - 07/2022

Associate Software Engineer

- Assisted in the development of a customisable Point-of-Sale (POS) system for retail businesses.
- Developed backend features using .NET Core and supported front-end development with HTML5, CSS3, Bootstrap, and Angular.
- Participated in code reviews and debugging sessions to identify and resolve defects, improving overall system stability.
- Collaborated with the development team to analyse requirements and implement new features iteratively.

EDUCATION

Coventry University, UK 2025 - 2026

MSc in Data Science and Computational Intelligence

- Applied machine learning, big data, and NLP techniques across coursework, gaining hands-on experience with AWS services including EMR, Redshift, Hadoop, Glue, and S3.
- Research Project: Designed and benchmarked four prompting strategies (zero-shot, schema-aware, few-shot, contextual) for natural language-to-SQL generation using a locally-hosted LLM (Llama), evaluated on the WikiSQL dataset; few-shot prompting achieved the highest accuracy, while schema-aware prompting significantly improved SQL validity; built a demo UI to showcase the system.

University of Jaffna, Sri Lanka 2019 - 2023

BSc in Information Technology

CERTIFICATIONS

Diploma in Information Technology

Diploma in Graphics Designing

Diploma in AutoCAD

Diploma in English

AVAILABILITY

Currently residing in the United Kingdom on a Graduate Visa (valid until May 2028) and available for immediate full-time employment.
